PROJECTS

ExamIdea Educational Website :

- **Features:** Home Page, About Page, Service Page, Contact Page & Checkout, Category.
- **Technology used:** HTML, CSS, JavaScript, PHP, MySQL
- **Description:** Our goal with ExamIdea is to help you learn easily and enjoyably. We want to make studying simple and fun. We will give you tools to track your progress and connect with others who are learning too. Our aim is to make learning something you look forward to every day.

NIKE Shoes E-Commerce Website :

- **Features:** Home Page, About Page, Service Page, Contact Page & Checkout, Category.
- **Technology used:** HTML, CSS, JavaScript.
- **Description:** Our Nike Shoes E-Commerce Website project aims to create a dynamic and user-friendly online platform for customers to explore and purchase Nike footwear. This digital storefront will showcase Nike's extensive collection of sneakers, running shoes, athletic gear, and accessories.

Trip Registration Form:

- **Features:** Home Page, Database connectivity.
- **Technology used:** HTML, CSS, PHP & SQL.
- **Description:** This Form is designed to facilitate a seamless and organized process for individuals or groups planning to visit Manipal University. Whether you're a prospective student, a researcher, a school group, or simply curious about exploring the university campus, this form streamlines the registration process and ensures that your visit is both informative and enjoyable.
